

Bryan Batan

Camarin Caloocan City | 09306909179 | bryanbatan17@gmail.com | [Portfolio](#)

PROFILE SUMMARY

I am a Fullstack developer with 5 years of experience building web and software solutions, preceded by 3 years of professional experience in non-IT roles. Skilled in JavaScript, TypeScript, Python, C#, and Java, and proficient with frameworks including React.js, Node.js, Django, Spring Boot, ASP.NET Core, and Blazor. Experienced in databases (PostgreSQL, SQL Server, MongoDB) and DevOps tools (Git, Redmine, Jenkins, Docker, Kubernetes, Amazon S3, Azure DevOps), working effectively in Agile/Scrum and Waterfall environments to deliver robust, scalable applications. My diverse professional background strengthens my problem-solving, communication, and organizational skills, enabling me to contribute effectively in cross-functional teams and dynamic projects.

KEY SKILLS

Programming Languages / Frameworks:

JavaScript, TypeScript, Python (Django), C#, Java, [Node.js](#), [React.js](#), [Express.js](#), [ASP.NET](#) Core, Blazor, Spring / Spring Boot

Databases:

SQL Server, PostgreSQL, MongoDB

DevOps / Tools:

Git (Github / Gitlab), Redmine, Tortoise SVN, Jenkins, Docker, Kubernetes, Amazon S3, Azure Devops, Tera Term, FileZilla

Methodologies:

Agile / Scrum, Waterfall

EMPLOYMENT HISTORY

Accenture, Inc.

11.2024 - Present

Advanced App Engineering Analyst

Tech Stacks

Java, C#, PostgreSQL, Redmine, Waterfall Methodology, Tortoise SVN, Amazon S3, Tera Term, FileZilla

- Supported Japanese client applications by addressing system-related requests and issues.
- Developed and maintained Java and C# applications based on client requirements.
- Performed end-to-end testing activities, including Unit Testing and System Testing.
- Revised detailed design documents to reflect system changes and development requirements.
- Performed additional tasks assigned by the Team Lead or Project Manager, including forecast automation for management reporting.

Trends Group Inc.

07.2022 - 11.2024

Full-stack Developer

Tech Stacks

[ASP.NET](#) Core, Blazor, Node.js , [React.js](#), [Express.js](#), MSSQL, MongoDB, Git, Gitlab, Azure Devops, Redmine, Jenkins, Docker, Kubernetes, Agile Methodology

- Delivered high-quality solutions while working within tight deadlines and a fast-paced environment.
- Analyzed existing workflows to develop logic for new systems, procedures, and test cases.
- Built and maintained databases and table structures to support web application functionality.
- Designed and developed innovative systems that address user needs and enhance productivity.
- Estimated work hours and tracked progress using Scrum methodology to ensure timely project delivery.
- Coordinated deployments of new software releases, feature updates, and bug fixes to ensure smooth production rollout.
- Demonstrated ability to work effectively both independently and as part of a collaborative team.

Trends Group Inc.

05.2021 - 07.2022

Backend Developer

Tech Stacks

Java, Python, Django, MSSQL, Git, Gitlab, Agile Methodology

- Translated a Java application into Python to better meet user requirements and improve maintainability.
- Communicated effectively with clients to address questions, concerns, and feedback.
- Collaborated effectively with cross-functional teams to deliver solutions that meet user requirements.
- Managed, optimized, and debugged software applications to ensure performance, reliability, and maintainability.

- Reviewed and managed content to identify and handle inappropriate material, including violence, sexual content, and drug-related content.
- Compiled and organized inappropriate content reports for review and action.
- Collaborated with cross-functional teams to ensure solutions met user requirements.
- Maintained close coordination with QA teams to review and classify valid and invalid content.
